

## **Encasing Fabric Care Instructions**

**For Pillow Encasings:** Machine wash the encasing every 10 to 14 days in HOT water (or consider using a laundry additive like de-mite™). Tumble dry at the LOWEST setting. Do not bleach, iron or dry clean.

**For Mattress Encasings:** Vacuum the entire surface of the encasing every 10 to 14 days to capture any allergens that may have gotten on the surface. For best results, consider using an allergy-proof vacuum or vacuum bag. Machine wash the encasing once or twice a year in HOT water (or consider using a laundry additive like de-mite™). Tumble dry at the LOWEST setting. Do not bleach, iron or dry clean.

**For Pillow Encasings:** Machine wash the encasing every 10 to 14 days in HOT water (or consider using a laundry additive like de-mite™). Tumble dry at the LOWEST setting. Do not bleach, iron or dry clean.

**For Mattress Encasings:** Vacuum the entire surface of the encasing every 10 to 14 days to capture any allergens that may have gotten on the surface. For best results, consider using an allergy-proof vacuum or vacuum bag. Machine wash the encasing once or twice a year in HOT water (or consider using a laundry additive like de-mite™). Tumble dry at the LOWEST setting. Do not bleach, iron or dry clean.

## Satin Soft SUPREME™

**For Pillow Encasings:** Machine wash the encasing every 10 to 14 days in HOT water (or consider using a laundry additive like de-mite™). Tumble dry at the LOWEST setting. Do not bleach, iron or dry clean.

**For Mattress and Comforter Encasings:** Vacuum the entire surface of the encasing every 10 to 14 days to capture any allergens that may have gotten on the surface. For best results, consider using an allergy-proof vacuum or vacuum bag. Machine wash the encasing once or twice a year in HOT water (or consider using a laundry additive like de-mite™). Tumble dry at the LOWEST setting. Do not bleach, iron or dry clean.

## SoftTEK™

**For Pillow, Mattress, and Inner Liner Encasings:** Vacuum the entire surface of the encasing every 10 to 14 days to capture any allergens that may have gotten on the surface. For best results, consider using an allergy-proof vacuum or vacuum bag. Hand wash ONLY in emergencies using a mild detergent and warm water. Air dry using no heat. Do not bleach, iron or dry clean.

## Satin Soft CLASSIC™

**For Pillow Encasings:** Machine wash the encasing every 10 to 14 days in HOT water (or consider using a laundry additive like de-mite™). Tumble dry at the LOWEST setting. Do not bleach, iron or dry clean.

**For Mattress Encasings:** Vacuum the entire surface of the encasing every 10 to 14 days to capture any allergens that may have gotten on the surface. For best results, consider using an allergy-proof vacuum or vacuum bag. Machine wash the encasing once or twice a year in HOT water (or consider using a laundry additive like de-mite™). Tumble dry at the LOWEST setting. Do not bleach, iron or dry clean.
