Eliminate The Causes Of Chronic Sinusitis At Their Source!

A Mayo clinic study linked mold and fungi in the nasal cavities with chronic sinusitis. Agrumax™ is an all-natural, anti-fungal concentrate that has no known toxicity or side effects. Laboratory tests have demonstrated that Agrumax can be used as a fungicide, a bactericide, an antiseptic, and an antioxidant. Some doctors recommend using Agrumax in a saline nasal spray application for the elimination of fungi and sinus irritants. Agrumax is also safe to use while using other saline or steroid nasal sprays. Just mix a few drops of Agrumax into 6–8 ounces of saline and use in any irrigation device.

Humidity Management

Get Quiet Comfort, Plus Germ Protection And Self-Adjusting Humidity Levels

The moisture found in the air is as important to a dust mite as water is to a fish. Without it, they die. Lower the indoor humidity to 50% or less and they're in trouble. Lower it to 40% or less and they literally shrivel up and die (except inside bedding where your body moisture provides the necessary humidity – that's why encasings sold on pages 19-23 are so important). These Soleus® Energy Star® dehumidifiers can operate in temperatures as low as 41° F without icing up, making them usable in any room – even in your basement – almost year round. Lowering the humidity can make a big difference in the mite population inside your entire home. Plus, allergenic fungus growth, like mold and mildew, is also controlled since it needs high humidity levels to thrive. Lower humidity takes care of musty odors as well. The rating on Soleus dehumidifiers refers to how many pints of water they are capable of removing per 24-hour period. These powerful machines can lower room humidity to desired levels even in very damp or wet conditions. *1-Year Mfr. Limited Warranty. Plus Our 100% Money Back Guarantee.* No extra shipping and handling charges apply.

Get Quiet Comfort, Plus Germ Protection And Self-Adjusting Humidity Levels

When the humidity outside drops, our home environment often gets so dry that we develop dry, itchy skin and nasal/sinus problems as a result. The GermGuardian™ Ultrasonic Humidifier can help adjust the humidity to a comfortable level again...almost silently. Only clean water is vaporized into the room due to its use of nano-silver technology that fights the growth of mold and bacteria in the tank.

The 6-lb. Germ Guardian has manual controls that allow you to adjust the humidity level as well as choose either warm or cold humidification as desired. When the 1.4 gallon tank is low on water, an LED on the front panel will light up and the unit will shut off. Be sure to monitor the humidity level with our humidity gauge so you don't over-humidify. For optimum dust mite and mold control, humidity should always remain between 40% and 50%. *2-Year Mfr. Limited Warranty.*

Acu-Rite® Indoor Thermometer Checks Humidity And Temperature Levels For Improved Mold And Mite Control!

Monitoring the relative humidity in your home is vitally important in controlling dust mites and mold, since both thrive in moist settings. Humidity under 40% actually kills and eliminates mites completely, because it's too dry for them to survive (except in your bed where it's always warm and humid due to your body. This is why bed encasings, sold on pages 19-23, are so critical).

The Acu-Rite® Indoor Thermometer makes it easy to monitor your home with many great features. You can check the humidity and temperature at a glance with the large, clear display. It also displays max/min humidity and temperature as well as the comfort level and shows temperature in either Celsius or Fahrenheit. Requires only 1 AA battery, not included. We offer batteries below for your convenience. *1-Year Mfr. Limited Warranty.*

Dust Literally Jumps On This Cloth And Stays There

No other dry dust cloth performs like the amazing Dust Grabber®. This high-tech fabric has a permanent electrostatic surface charge, so dust is picked up without being stirred up. Allergy sufferers benefit, since house dust needs to be picked up frequently.

Our Dust Grabber has NO odor, contains NO chemicals, has NO tacky feel, and WON'T leave a dull film. Use on any surface; especially effective on wood furniture. Makes dusting tough places like TV's and computer monitors a snap! Each stretchable cloth measures 18" x 18" and is highly durable. When dirty, just toss it into the washing machine. Even after 100 washings, it retains its dust-attracting, magnetic properties. Great as a replacement for mops that use disposable cloths, too.

BedCare™ Elegance
Mite-Proof Pillow

Our BedCare™ Elegance Mite-Proof Pillow Stays Cool And Comfortable All Year Long Yet Requires No Encasing

These luxurious pillows are covered with a soft, woven, mite-proof fabric so they need no encasing. Mites and their allergen can't get through the sumptuous 100% polyester microfiber fabric but air can, so you'll be comfortable all night. That's because the fabric is so tightly woven that even particles as small as cat dander (approx. 1 micron) can't pass through. It's our most efficient allergen barrier fabric, but it's also as soft as a summer breeze. Now you can get a good night's rest knowing your pillow is safe from dust mites and their allergen right from the start and as long as you own it. Buy enough for every bed in your house. Machine wash and dry. Made in the U.S.A. *5-Year Warranty.*

Our Healthy Dreams™ Pillow Stops The Growth Of Cold And Flu Germs

New! Most pillows begin growing mold, bacteria, and dust mites soon after you start using them, and the problem only gets worse over time. That's because we breathe moisture into our pillows as we sleep. But we designed our exclusive new Healthy Dreams pillow with the Micrenza™ bio-filter to be the first truly germ-free, mold-free, and allergen-free pillow available, so you can sleep safely without breathing in harmful biological particles that cause congestion and infection. No other pillow has a filter to protect you.

- *The outer 300TC cotton fabric of the pillow is bonded to a soft, stretchable, ComforTech membrane that keeps moisture from passing into the pillow.*
- *The cotton shell has been treated with a germ and mold fighting agent to keep anything from growing on the surface.*
- *All of the air that enters into or out of the pillow must pass through the Micrenza bio-filter to ensure that nothing harmful enters into it.*
- *For your protection, our filter has the same bacteria filtration efficiency as an N95-rated surgical mask.*
- *Your new Healthy Dreams pillow will remain germ and mold-free for as long as you own it.*

Made In America Just For You

While most sewing manufacturers are going “off shore”, all of our fabric encasings are made in a National Allergy owned sewing plant in North Georgia by employee-owners of the company. Not only are we able to contribute to the American economy by employing American workers, but we also have total control over production quality. And we use special tests to make sure that the fabrics, seams, and zippers in our encasings protect you and your family from allergens in your pillows, mattresses, box springs and comforters.

We also thoroughly inspect every encasing we make for quality workmanship. Most manufacturers only inspect random samples, but we decided that was not good enough for our customers. Our goal is to make the best encasings in the world... *and then to make them even better!*

*Healthy Bedding Makes The Difference;
Buying From The Manufacturer Means Great Value!*

Making changes to your home environment is a major step in controlling your family's exposure to harmful allergens.

Begin In The Bedroom

1. Manage Humidity - Check humidity often and monitor levels since dust mites and mold spores thrive in a humid environment. Keep humidity levels at 50% or less by using a room air conditioner or dehumidifier. **Page 10**

2. Take Control Of Dust - Avoid cloth drapes as these can collect allergens; use shades or blinds and dust often. Also, remove other dust catchers like books and stuffed animals. **Page 11**

3. Furniture Choices - Choose wood, leather or vinyl for furniture, because dust mites cannot live on those surfaces, and cleaning is easy. **Page 11**

4. Allergen Proof Encasings - Use mite-proof encasings on all bedding, including pillows, mattresses, box springs, and comforters. **Pages 19-23**

5. Laundry Care - All bedding that cannot be encased should be washed in hot water (140° F) every 10 to 14 days. This rinses away allergens, and the hot water kills mites. Or, use a special laundry product for allergy sufferers. **Page 35**

6. Purify Your Bedroom Air - Remove airborne allergens with a high-powered HEPA Room Air Cleaner. Be sure to get a unit powerful enough to handle your room size. **Pages 28-32**

7. Carpet Treatment - Use throw rugs instead of wall-to-wall carpeting, or treat carpeting with an anti-dust mite spray or powder. You may want to consider using high efficiency vacuum bags or purchasing a True HEPA Vacuum Cleaner to greatly reduce emissions. **Pages 14-15 & 40-41**

8. Filter Your Home's Air - Use filters over incoming vents in the bedroom, or consider a whole house furnace filter to reduce dust throughout your home or apartment. **Pages 33-34**

All Of The Luxury And Warmth Of Down Without The Feathers

Indulge yourself without irritating your allergies. Our Sleep Better® Beyond Down® Comforter has an elegant 300 thread count, all-cotton, floral jacquard cover, but its real beauty is below the surface. The sumptuously soft gel fiber filling is completely hypoallergenic; it's the ultimate synthetic alternative to down. This comforter is machine-washable, and the barely visible baffle box stitching keeps the filling in place – no bunching! Superior craftsmanship brings you unbelievable comfort and undeniable luxury. Now your bedroom can be allergy-proof and fashionably decorated. For lasting protection, encase your new comforter with one of our mite-proof comforter covers (see page 27). *10-Year Mfr. Limited Warranty.*

Fabulous Fluffiness In A Lightweight, Light Warmth Down Comforter

NEW! The Pacific Coast® Light Warmth Comforter is ideal for sleepers who need less warmth at night or for those who live in warmer climates. True baffle box design allows the down inside to loft while minimizing shifting across the comforter. This means you get a fluffy feel without being too warm. The Comfort Lock® system locks the Hyperclean® down in place over the sleeper, thereby eliminating excess down shifting to the edges or bottom while the 300 thread count 100% cotton Barrier Weave™ fabric prevents the down inside from sneaking out. With a fill power of 550, a measure of how lofty the down is, you'll get a comforter that will stay fluffy for many years to come. For lasting protection, encase your new comforter with one of our mite-proof covers (see page 27). *10-Year Mfr. Limited Warranty.*

Get Year-round Comfort With Berkshire Microloft Fleece Blankets – Great For Allergy Sufferers Who Need A Long-Lasting, Attractive Blanket That Can Be Washed And Dried Repeatedly Without Damage

NEW! People who suffer with dust mite allergies need attractive blankets that can be washed in very hot water without any harm to the blanket, but they are often not easy to find. Polyester fleece blankets have been improved so much since they were introduced to the market many years ago that you would hardly recognize them now. The new Berkshire Microloft fleece blankets are made with velour-like micro-plush fibers so they never shrink, pill or matt, even after repeated hot-water washing and drying. Unlike heavy wool blankets, these light-weight, all-season blankets can stay on your bed year round. Available in Cream, Sage, Linen/Tan, Navy, and Periwinkle Blue. Colors may vary with dye lot. *100% Money Back Guarantee.*

Our Ambient Comfort™ Mattress Pad Actually Helps To Increase Energy And Speed Muscle Recovery!

NEW! Our new Ambient Comfort Mattress Pad fits your mattress like a traditional pad, but that is where the similarity ends. That's because the Ambient Comfort pad contains 50/50 Celliant Hologfiber and polyester fiber to help increase blood flow to your body as you sleep. Like the Ambient Comfort Pillow on page 16, our new mattress pad comforts and energizes you because it's made with Celliant™ Sleep, a special material that has been clinically proven to improve oxygen levels and regulate body temperature so you get a better night's rest. This plush pad is 2" thick and has a 400 thread count cotton sateen cover. The 14" Spandex skirt fits mattresses up to 20 inches deep. You may need an extra-deep mattress encasing to accommodate covering your mattress pad to keep it mite-free. Or, you can wash your mattress pad with De-Mite (on page 35) added to your detergent. NEW Blueair 650E Delivers More Clean Air To You And Your Family, So You'll Know You've Done Your Best For Their Health!

Few air cleaners made by any manufacturer can compare with the clean air delivery rate (CADR) of the new Blueair 650E – especially for large rooms. In fact, you'll want to run your Blueair around the clock, because even in your bedroom where quiet is important, you'll find that it has impeccable manners, never disturbing your sleep. Blueair's three-stage filter and encapsulated ion chamber (no ozone emitted) combine to create HEPASilent™ filtration. In addition to its powerful operation, the 650E comes with a remote control, digital display with timer, auto-mode, built-in filter change indicator, plus gas and dust sensors. This system gives you the power to manage your indoor air quality better and more thoroughly than other air cleaners. Even filter changes are incredibly easy. Simply open the unit's lid, lift out the old and drop in the new replacement filters every 6 months. Cleans the air in large rooms up to 20' x 35' (698 sq. ft.) 5 times per hour. *1-Year Mfr. Warranty. Plus Our 100% Money Back Guarantee.* Other Blueair models are available and start as low as \$299.99.

Special Features Of Whirlpool Air Cleaners

- Quiet operation through advanced filter and fan technology.
- Truly easy to operate. The AP510 has touch sensitive, electronic controls.
- Three fan speeds on the AP250 & 450. The AP510 has a 4-speed fan.
- Easy filter changes - simply remove the front panel and replace the filter.
- Filter change indicator lights remind you when it's time to change filters.
- Carbon pre-filter removes smoke and odors.

Our Customers Choose Whirlpool® Air Cleaners More Than Any Other Brand!

The Whispure is an air purifier that won't disturb your sleep. Simply turn it on and leave it on. And it's energy efficient, using about the same wattage as an ordinary light bulb. Designed to blend into your home décor, the Whispure works anywhere, even against the wall or in a corner. Maintenance is a breeze with monitor lights that conveniently signal the need for filter changes through the easily accessible front panel. The AP250 and AP450 have three-speed fans that let you control air output. The AP510 has additional features including a 4-speed fan, electronic controls, an 8-hour sleep mode, and a childproof control lock. *5-Year Mfr. Limited Warranty. Honeywell®

Reduce Airborne Allergens That Cause Those Miserable Allergy And Asthma Symptoms

If you wake up in the morning with a runny nose, itchy and swollen eyes, or experience frequent sneezing and wheezing, you may be reacting to airborne contaminants. Indoor air is loaded with microscopic dust mite allergen, animal dander, room dust, mold spores, bacteria, viruses and more. These

contaminants all contribute to poor indoor air quality, which is ranked among the top five environmental risks to public health. And because modern homes and offices are built to airtight specifications to conserve energy, airborne particles just remain in the air with nowhere else to go. No wonder your system is on overload, but a HEPA air cleaner can help! A survey conducted by Riter Research found that, of physicians that recommended air cleaners, 93% consider HEPA filtration to be very effective. These Honeywell® air purifiers are portable, lightweight, footstool size and include both filters. They all feature a 3-speed motor, updraft clean air exhaust, an Intelli-Check™ filter monitor, and SurroundSeal™ technology with a permanent* HEPA filter. *5-Year Mfr. Limited Warranty. Plus Our 100% Money Back Guarantee.*

Although the ozone emitted is only 0.001 ppm (parts per million) as compared to ionic air cleaners which typically emit 0.15 – 0.3 ppm, if you're an asthmatic please consult your physician before ordering one.

Filter Your Home's Air with the Best Filtrete Furnace Filter Ever Available For Residential Use

NEW! The new Elite Allergen 2200 MPR 1" Filtrete furnace filter is 3M's highest rated filter yet. If you've ever used a high efficiency Filtrete furnace filter, you've experienced the almost immediate reduction in dust. That's because Filtrete furnace filters remove even tiny, lung-damaging particles from your home's air better than all other 1" filters. We often recommend that you run your furnace fan in the "on" position for a week after installing a 3M Filtrete filter for the first time, so you can quickly reduce the dust and allergens in your home's air. This filter meets the American Lung Association® Healthy House Indoor Air Quality Guidelines because of its high filtering efficiency. Replace every 3 months.

Turn Your Furnace Into An Allergy Fighting System And Never Buy Another Furnace Filter

Permatron® DustEater® electrostatic air filters use a unique Accumulator Chamber® to provide efficient three-stage filtration that reduces indoor pollutants helping to relieve many allergy symptoms. Cleaning is a snap – just rinse the filter under running water every month or so. For greasy or stubborn dirt, use Nu-Stat™ (below). Installation is easy, too. Just slide your old HVAC filter out and slide the Permatron filter in. The DustEater has an arrestance efficiency of 91%, and the DustEater Easy Flow has an arrestance efficiency of 82% due to lower air flow resistance, which is recommended for furnaces over 10 years old and some heat pumps. These filters have strong metal frames. *Lifetime Mfr. Warranty.*

Stop Dust From Coming Into The Room

A simple and basic environmental control for any room, these high-grade, electrostatic, polyester filters remove the dust coming out of the ductwork. To install, simply cut the filters to the size of the incoming air vents in your room and attach using the 30" installation strip* that's included with the kit. In just a few weeks, you'll see plenty of trapped dust, dirt, and lint you might have otherwise inhaled. The DustChek™ filter kit includes enough material for twelve monthly changes on a normal size vent. Or you can get the same dust-stopping material already pre-cut into six 7" x 11" filters for your convenience. Please check your vent size before ordering. For best performance, cover no more than two or three vents, change filter monthly, and treat with Goodmorning™ Purifying Spray (below).

Static Eliminator Sheets

De-Mite® Laundry Additive Eliminates The Dust Mite Problem Even In Cold Water

Now there's an alternative to washing your bedding in extra-hot water. Just 1½ tablespoons of De-Mite in hot, warm, or cold water will eliminate dust mite allergen in your bedding or clothing. Regular detergent won't solve the mite problem in your laundry, but De-Mite's active ingredients eliminate the allergen with each wash. De-Mite contains benzyl benzoate in one of the most effective mite-allergen reducing formulas available anywhere. So give your bedding and clothes a break from hot water washing and still solve the dust mite problem with De-Mite. Safe to use with all washable and colorfast fabrics. Measuring cup included.

Static Eliminator Sheets Soften Clothes Without Harsh Chemicals

Did you know that the dryer sheets we so often use can contain harsh chemicals? Static Eliminator's patented dryer sheet system safely solves the static problem and reduces wrinkles without any added chemicals or fragrances. This special technology is based upon the weave of the cloth, which allows it to conduct the static out of your laundry. The reusable dryer cloths will not spot or stain, will save you money, and will reduce waste. Each box of two sheets will last an incredible 500 loads!

If You're Trying To Reduce The Chemical Products You Use In Your Home, Then You Are The One We Had In Mind When We Introduced These Natural Soap Flakes

New! Dri-Pak Soap Flakes are made the simple way soap has been made for centuries, so they are pure soap in a flake form shaped like tiny flat diamonds. Soap Flakes are made from a 100% vegetable base of palm and coconut oils. They contain no additives. No bleaches, no phosphates, no enzymes, no harsh chemicals. Soap Flakes are so simple, they don't even contain any perfume, so they're ideal for those with sensitive skin. They are also perfect for washing delicate fabrics, silks, woolsens and specially treated micro-fiber fabrics such as waterproof sports and outdoor clothing. Soap Flakes have not been tested on animals and are completely biodegradable. It's hard to believe that anyone makes simple and effective products like this any more, but we're glad to confirm they still exist.

Mold Control

This Two Step Process Is Guaranteed To Perform Or Your Money Back!

Step One: Remove Ugly Mold And Mildew Stains Without Chlorine Or Bleach

Chlorine bleach products can be harmful to you and to surfaces with prolonged use. All Purpose NAS-12™ is a safe, non-chlorine, non-toxic, biodegradable, virtually odorless cleaner. It is designed for removal of mold and mildew stains, but the improved formula works equally well on all household dirt. Cleaning is easy and there are NO harsh fumes! Just spray it on, let stand for a few minutes, scrub lightly with sponge or cloth, and rinse.

To keep mold or mildew away, we recommend applying No More Mildew™. See Step 2 below for this unique protective coating that prevents mold and mildew growth up to 2 years.

32-oz. Spray Bottle	60-0012	\$8.49
Gallon Refill	60-0022	\$19.96

Step Two: Control Mold & Mildew For Up To Two Years With One Application

No More Mildew™ forms a micro-thin sealant coating that helps prevent mold and mildew growth for up to two full years! Reapply every couple of years, and mildew could be a worry of the past (showers may require more frequent application). No More Mildew will not work properly with chlorine/bleach based cleaning products. Quart bottle covers 75 sq. ft. The new formula lasts longer, requires less shaking and stays mixed longer.

No More Mildew Benefits Include:

- *No more scrubbing every few weeks, no more breathing in noxious chlorine fumes.*
- *Control the highly allergenic mold spore and the odor associated with it.*
- *Mild, non-toxic, virtually odorless solution works on any surface where mold and mildew grow. It even works on brick, painted surfaces, roofs, and in closets. Not recommended for use on glass or natural stone.*
- *Control musty basement and crawl space odors just by spraying on floors, walls, joists, or exposed dirt. Works on indoor plant soil, too.*
- *Now even easier to apply with no mixing or measuring; just shake briefly & spray.*

Safely Kill 99.9% Of Bacteria And Viruses On Any Surface And Keep It Away. Kills Mold And Mildew, Too!

Sanitizing your home can involve strong chemicals that can trigger an asthma attack, but our Vital-Oxide® controls germs (like H1N1) and mold by oxidizing them instead of bleaching them. In fact, it's so mild that you can wash your hands in it, but it's tough on bacteria, viruses and mold anywhere you find them in your home. Use it on countertops, in shower stalls, on and under sinks, in basements and crawl spaces – anywhere bacteria and mold are found.

As a broad spectrum biocide, Vital-Oxide can be used to kill germs throughout your home and has been proven effective against H1N1, MRSA, E Coli, Norovirus, and Legionella in testing by certified laboratories. In recent tests using ceiling tile directly exposed to toxic mold, Vital-Oxide kept the mold from growing for 7 months with a single treatment. For removing mold stains, simply spray, let stand for a minute; then lightly scrub surface. Rinse with water; then reapply Vital-Oxide for long-lasting protection. This EPA registered product is colorless, odorless and will not harm water-safe fabrics.

Anti-Allergen Solution Prevents Allergic Reactions By Neutralizing Allergens Completely

This spray neutralizes the protein in many household allergens on contact, so they become completely harmless. It denatures allergens by breaking down the protein chain bonds in dust mite waste and pet dander so they can't harm you. But Anti-Allergen Solution also encapsulates the elements of these proteins and keeps them from recombining, so they can never cause an allergic reaction. This plant-based formula is clear, stain-free, and non-toxic. It can be safely sprayed directly on all washable household and commercial surfaces, as well as vehicles, clothing, and bedding. Also great for use on pet bedding to neutralize pet dander and dust mite allergen. Anti-Allergen Solution is the perfect companion product to Dustmite And Flea Control™ found below. Quart covers about 500 sq. ft.; gallon covers about 2000 sq. ft. Repeat every 60 days for maximum effectiveness. Another great product from The Ecology Works®.

Dustmite And Flea Control™ Is The Best Mite Treatment Available To Kill Dust Mites In Carpets And Furniture

Here is the clean and natural way to kill dust mites and keep them away. Use the powder as a spray or in a carpet steamer (or wet extraction machine) to create an environment that is absolutely fatal to mites, but is perfectly natural and harmless to your family and pets. Dustmite And Flea Control is not a harsh chemical or dangerous poison, but rather a natural boron compound much like the borax used in laundry cleaning. A published medical study indicates that eight weeks after the initial treatment nearly every mite in carpet or furniture will be dead... and won't come back between treatments. The 8-oz. bag dissolves to cover 200 sq. ft. of carpet when used as a spray (or 100 sq. ft. when used in a wet extraction machine). The 2-lb. bag makes enough solution to cover 800 sq. ft. as a spray (or 400 sq. ft. with wet extraction). Now, also available in a pre-mixed spray, which treats 100 sq. ft. For best results, treat twice annually.

AllerSafe™ Spray Neutralizes Allergens At A Great, Low Price

Proprietary plant-based technology neutralizes the protein in allergens such as dust mite waste and animal dander and renders them harmless without any danger to you, your pets, or your environment. AllerSafe Dustroy™, an allergen neutralizing spray, has no added fragrances or dyes, so it won't stain your furniture or carpet. Lightly spray on carpets, rugs, or upholstered furniture and allow to dry. Be sure to lightly mist, as heavy application will cause carpet or upholstery to be sticky. If too much is accidentally applied, use a damp cloth to wipe off excess. Dustroy does not contain tannic acid and is safe to use on all washable and water-safe fabrics. However, it should be tested on an inconspicuous area first. Lasts 2-3 months or until your next steam or dry cleaning. The 32-oz. bottle with sprayer covers about 500 sq. ft., while the gallon will cover around 2,000 sq. ft.

Safe And Natural Allergen Neutralizer Recommended By Allergy Specialists For Environmental Control

Allerserch ADS Spray is one of the environmental controls most recommended by allergy specialists. Dust mite waste particles and animal dander particles are extremely small and can be kicked up off carpet just by walking across it. The particles stay suspended in air for long periods of time. Eventually, you inhale them and they trigger allergic reactions such as sneezing, wheezing, runny nose, and itchy eyes. Allerserch ADS is a mild, natural, 3% tannic acid spray that's been proven to be medically effective to neutralize dust mite particles, animal dander, mold, mildew, and pollen, rendering these allergens harmless. Allerserch ADS is safe and virtually odorless. Use on carpets, rugs, stuffed chairs and sofas. Quart covers about 500 sq. ft.; gallon covers about 2000 sq. ft. Repeat every 2-3 months for maximum effectiveness.

Future carpet cleaning should be done with a dry method only. See below for Capture® Dry Carpet Cleaning Kit.

Clean And Freshen Carpet Without Steam Cleaning

Dust mites and mold thrive in damp carpet. Since Capture™ is applied as a pre-mist and powder, you do not have the dampness caused by steam cleaning. Capture deodorizes and cleans while removing surface allergens from your carpets and upholstered furniture. Its advanced formula polymers act like little sponges to collect and hold dirt and allergens so they can be easily vacuumed up. Simply lightly spray on the pre-mist (use a little extra on soiled spots), then brush in the powder. Allow time (at least 30 minutes) for Capture to work, then vacuum. Getting rid of dirt and allergens has never been easier. Kit includes 24-oz. soil release pre-mist spray, applicator brush and 4-lb. pail of Capture – enough for 400 sq. ft. Use as often as needed on spots, high-traffic areas or the entire carpet.

Managing Pet Allergens

Used Weekly, Allerpet® Removes Dander And Softens Pet's Skin To Reduce Allergen Levels

Medical literature agrees that treating your pet to reduce dander can greatly reduce the amount of allergen present. Allerpet® cleanses away dander and softens the pet's skin so less dander is produced. Dander levels will drop significantly with proper weekly use. Pour a small amount onto a washcloth and rub into your pet's skin. Safe for all furry or feathered pets. Not a shampoo.

Neutralize Allergens While You Shampoo Your Pet!

Pets react to dust mites and fleas like some people do by developing skin problems. Anti-Allergen Solution Pet Shampoo brings your pet and you relief in one safe, gentle-but-effective formula.

This shampoo neutralizes the protein in allergens so your pet gets relief, and its own dander is also rendered harmless to you. The stay-fresh, deodorizing formula in this shampoo also destroys pet odors and helps keep your pet smelling fresher longer. It's hypoallergenic and safe for all pets. Use regularly.

This Ultra-Light Portable Nebulizer Fits In Pocket Or Purse

At only 6-oz. including the 2 AA batteries it takes to power the unit, this is by far the world's lightest and smallest nebulizer to date. Electronic Vibrating Mesh Technology (V.M.T.) creates aerosolized medication faster and more efficiently than bulky table-top compressors so that it penetrates deep into your lungs for more effective asthma relief. Tubeless and cordless operation, combined with 4 hours of run time on a single pair of batteries, means you get unmatched freedom and portability. No need to worry about electrical current in foreign countries; just take along enough batteries for your trip. Easy to use – simply add your prescribed medication and press the “on” button. The MicroAir® Nebulizer by Omron® comes complete with carrying case, mesh cap, instructional video, and illustrated manual. Batteries not included but available below for your convenience. *2-Year Mfr. Warranty.*

Avoid Surprise Asthma Attacks By Monitoring Your Peak Flow Regularly

Doctors who treat asthma patients strongly recommend monitoring your lung function. By using a peak flow meter regularly, you can take your medication before having an asthma attack. Our lung function indicators measure lung congestion to help you determine the most effective treatment. The digital model has a memory and records 240 readings. *1-Year Mfr. Warranty.*

Smaller Is Good And Less Expensive

The MicroChamber® spacer fits most metered dose inhalers, is very portable and easy to carry, and costs much less than similar devices. The MicroChamber is the smallest aerosol holding chamber device available and is so convenient to use. It performs like much larger and more expensive devices. Dishwasher safe and latex free.

Free Support From Our Highly Trained Staff:

In addition to our 24-hour order service, we have a staff of highly trained Customer Service Representatives who understand your needs and the products we carry. They are ready to answer your questions and help you make a selection. To reach them for consultation, call 1.888.498.7401 from 9 a.m. until 5:30 p.m. Eastern Time, Monday through Friday.

If You Need To Return Any Items:

If there is a problem at the time of delivery, please call our Customer Service and Support Staff at 1.888.498.7401 Monday through Friday from 9 a.m. until 5:30 p.m. for assistance in replacing the damaged or defective product. For more information about our easy return procedure, please visit our website at www.NationalAllergy.com/returns.

Privacy Policy:

National Allergy takes your privacy very seriously and has a strict policy in place. Since inception, we have guarded the information supplied by each and every person as confidential. We have never rented, sold, given or distributed any information from our databases to any third parties.

Be A Distributor:

Whether you're an established business wanting to expand into the allergen avoidance products business or someone who wants to buy in case lots to get a discount for family and friends, National Allergy's Commercial Division can best serve your needs. Call 1.877.627.8775 or e-mail commercialsales@nationalallergy.com.

Want To Fax Your Order:

For fast, no-hassle ordering 24 hours a day, fill out the order form and fax it to 1.800.395.9303.

Shipping Policy:

We work very hard to ensure that you get your order quickly by stocking almost every product we carry. With few exceptions, orders are shipped within 1 or 2 business days. Our experience has shown that most orders are received between 3 and 10 business days after leaving our warehouse. Express delivery (next day, 2-day, or 3-day) is also available at extra cost. Ask for a quote from one of our trained representatives.

Please remember that our rates include a processing fee and are not just the actual freight costs. This portion of the fee goes toward the handling of your order including the materials used (boxes, tape, packing paper, etc.) as well as the labor to pick, pack, and ship your order.

Order tracking information will be e-mailed to you upon shipment if you provide your e-mail address.

Card Security Code:

Credit cards have a number printed on them which is used to verify that you have physical possession of the card to help prevent fraud. American Express uses a 4 digit number on the FRONT that appears above your credit card number and can be on either the right or left side. All other cards use a 3 or 4 digit number on the BACK that appears at the very end of the signature panel. You'll see either your entire credit card number or just the last 4 digits of your card number followed by the security code.

100% Satisfaction Is Our Guarantee To You!

If at any time, you are, for any reason, dissatisfied with any purchase, we will gladly replace the product, exchange it for another product, or refund your purchase price, whichever you desire.

New! Most pillows begin growing mold, bacteria and dust mites soon after you start using them, and the problem only gets worse over time. That's because we breathe moisture into our pillows as we sleep. But we designed our exclusive new Healthy Dreams™ pillow with the Micenza™ bio-filter to be the first truly germ-free, mold-free, and allergen-free pillow available, so you can sleep safely without breathing in harmful biological particles that cause congestion and infection. No other pillow offers this unique protection.

Here's how it works:

The outer 300TC cotton fabric of the pillow is bonded to a soft, stretchable, ComforTech™ membrane that keeps moisture from passing into the pillow.

We have also treated the cotton shell with a germ and mold fighting agent to keep anything from growing on the surface. All of the air that enters into or out of the pillow must pass through the Micenza bio-filter to ensure that nothing harmful enters into it. In fact, for your protection, our filter has the same bacteria filtration efficiency as an N95-rated surgical mask. And your new Healthy Dreams pillow will remain germ and mold-free for as long as you own it. Patent Pending. Side-sleeper, medium firmness. *10-Year Warranty. Plus Our 100% Money Back Guarantee.*
