

Dust Mite Proof Pillow & Mattress Covers

The #1 Doctor Recommended Solution For Allergen Avoidance

BedCare™ Mattress Encasings*

Super-Comfortable, Totally Breathable & Non-Crinkly

Dust mites live in all mattresses and pillows, and their waste can cause sneezing, a stuffy nose and swollen eyes in the morning. Our dust mite proof encasings stop all that because no dust mite allergen can get through. Our woven encasings have a mean pore size of 2-10 microns as recommended by medical literature and are made with quality stitching, hand-inspected seams and rust-proof zippers by our own craftsmen here in Georgia. Each encasing style is machine washable & dryable. All mattress encasings are FDA Registered Class 1 Medical Devices.

Five Lab-Tested & Certified Styles Available:

BedCare™ Basics – The most for your money! A strong, medical-grade, highly-engineered, poly-nylon, microfilament fabric. So soft and comfortable, you won't even know it's on your bed. Machine washing and drying only improves the fabric. **10-Year Warranty.**

BedCare™ Classic – A super-stretch knit fabric joined to a water-resistant, polyurethane, Comfortech™ membrane (non-breathable). Trusted and prescribed by doctors for many years. **Lifetime Warranty.**

BedCare™ Supreme – Soft, woven, 100% polyester fabric offers non-plastic, non-crinkly protection. Compare to competitors' encasings costing much more! Mean pore size of 4.3 microns. **Lifetime Warranty.**

BedCare™ Ultra – Woven of a soft blend of 65% polyester/35% cotton. Mean pore size of 5.3 microns. **Lifetime Warranty.**

BedCare™ Elegance – Our premium allergen barrier bedding is so silky-soft and light, it sets the standard for comfort and breathability. Woven polyester microfiber wicks away perspiration to keep you cool. Inner zipper cover eliminates possible allergen escape. Mean pore size of 2.9 microns. **Lifetime Warranty.**

MAKE YOUR BEDROOM AN ALLERGEN-FREE ZONE
Sleeping in an allergen-free bedroom can dramatically reduce allergy symptoms.

- Avoid heavy cloth drapes - use shades or blinds.
- Dehumidify or air condition to 45% or less humidity - measure levels with a humidity monitor.
- Stop incoming dust with furnace and vent filters.
- Wood, leather or vinyl furniture is best to prevent allergens.
- Use throw rugs instead of carpeting, or treat carpet with an anti-dust mite spray or powder.
- Use mite-proof bedding encasings.
- Wash bedding in hot water, or use a special laundry product for allergens.
- Remove airborne allergens with a HEPA room air cleaner.

This Two Step Process Is Guaranteed To Perform Or Your Money Back!

Step 1 Remove Mold And Mildew Stains Without Harsh Chlorine Odor!

All Purpose **NAS-12™** easily removes mold and mildew stains without harsh chemicals. It's non-toxic, odorless and biodegradable. Works great on all surfaces indoors and out. Just spray it on and let stand for a short time; then scrub lightly with a sponge or cloth. After cleaning, we recommend spraying on **No More Mildew™** for a long-term protective coating.

32-oz. Spray Bottle **\$8⁴⁹** Gal. Refill **\$19⁹⁶ Save**

Step 2 Mold/Mildew Sealant Gives Long Lasting Protection!

No More Mildew™ forms a micro-thin sealant coating that prevents mold, mildew, and bacteria growth for up to two full years! Just spray it on and leave to dry. It's ideal for allergy sufferers and homeowners. Works on any surface where mold or bacteria grow. Also great for a musty basement or crawl space. Mild, safe and virtually odorless. Quart bottle covers 75 sq. ft.

Safely Kill 99.9% Of Bacteria, H1N1 Flu Virus & Mold On Any Surface And Keeps It Away

Vital-Oxide® controls germs and mold by oxidizing them without the use of strong chemicals or bleach, which are rough on sensitive respiratory systems. As an EPA registered broad spectrum biocide, Vital-Oxide has been proven effective against H1N1, MRSA, E Coli, Norovirus, and Legionella in testing by certified laboratories. Yet it's so safe you can wash your hands in it, making Vital-Oxide great for use just about anywhere you find mold, mildew and bacteria in your home. This EPA registered product is colorless, odorless, and will not harm water-safe fabrics.

Prevent Allergic Reactions By Neutralizing Allergens Completely

Anti-Allergen Solution neutralizes the protein in many household allergens on contact, so they become completely harmless. The Solution also prevents the proteins from recombining, so they can never cause an allergic reaction. This plant-based formula is clear, stain-free, non-toxic, and can be sprayed directly on any household surface. Quart bottle covers about 500 sq. ft. Repeat every 60 days for maximum effectiveness. Another great product from The Ecology Works®.

Allersearch® ADS™ Spray Neutralizes Indoor Allergens

This mild, 3% tannic acid solution breaks down animal dander and dust mite particles, rendering them harmless. Spray on carpets, rugs, stuffed chairs and sofas where mites love to hide. Tannic acid solutions are recommended by allergists and in medical literature. Just spray on every 2-3 months. Quart covers about 500 sq. ft. Not for use on white or near-white fabrics.

De-Mite® Laundry Additive Eliminates Mites Even In Cold Water

Now there's an alternative to washing your bedding in extra-hot water. Just 1½ tablespoons of De-Mite in hot, warm, or cold water will eliminate the mites in your bedding or clothing. Regular detergent alone won't solve the mite problem in your laundry, but De-Mite's active ingredients eliminate them with each wash. Measuring cup included.

Allerpet® Wipes Away Pet Dander From Dogs, Cats & Small Furry Animals

Medical literature agrees that treating your pet to reduce dander can greatly reduce the amount of allergen present. Allerpet cleanses away dander and softens the pet's skin so less dander is produced. In fact, dander levels will drop significantly with proper weekly use. It's non-toxic, non-oily, odorless, and safe for both cats and dogs. Not a shampoo.
